ALUMINIUM WORKS

**SLIDING DOOR WITH
TOP FIXED PANEL**

**COLLAPSIBLE
DOOR**

**DOUBLE GLAZED FOR WINDOWS & DOORS
(RECOMMENDED FOR CASEMENT WINDOWS AND SWING DOORS)**

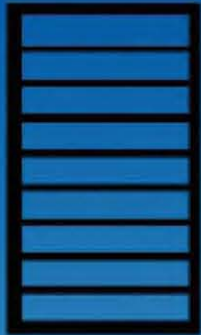

Double glazing, compared to single glazing, cuts heat loss in half and sound (approximately 80%) due to the insulating air space between the glass layers. In addition to reducing the heat flow, a double-glazed unit with clear glass will allow the transmission of high visible light and high solar heat gain.

GRILLE MATERIALS

First from left: solid round pole
Second from left: hollow round pole
Third from left: double hollow bar
Forth from left: hollow bar
